Introduction

Founded as a family business in 1980, MHS Radiators has been a respected and trusted company for three generations. Today, it is still owned and operated by the same families, who have the knowledge, passion and enthusiasm for practical yet exciting radiator designs capable of transforming any interior.

The Retail Collection offers the latest radiators in an extensive range of styles, colours and finishes. Within this brochure, models are divided into five distinctive sections, from the latest Italian designed models in *Designer* and *Towel Rails*, to timeless classics in *Multi Column* and *Cast Iron*. Plus, for the latest contemporary and energy efficient designs, *Sectional Aluminium* offers the best of both. On our website, you can find additional imagery of all models.

For the latest from MHS Radiators, follow us on:

Materials:

- AL = Aluminium
- CI = Cast Iron
- S = Steel
- SS = Stainless steel

Deliveries:

Delivery times are noted at the top of each individual product page; however, multiple items may extend this lead time.

Delivery is available to most mainland UK addresses, although some remote and rural areas including islands should note that delivery times may be extended or, in some instances, not available at all. Additional delivery costs may also apply.

Colours:

Cubi Horizontal

Combining Italian design and manufacturing with up to date contemporary styling, Cubi is the epitome of a high tech radiator with classic appeal.

Shown here in White (RAL9016) with Radius corner white thermostatic valves.

Cubi Vertical

With its distinctive angular profile, the Cubi Vertical is a radiator designed to be seen. Adding a bold colour finish elevates this contemporary radiator to a new level.

Shown here in 0523 finish with Radius corner chrome thermostatic valves.

Multisec Curved

Manufactured and assembled to the highest standards, Multisec Curved radiators offer timeless elegance in even the most complex installations.

How to order

Multisec Curved radiators must have a minimum internal radius length of 1000mm for 2 and 3 column radiators, and 1300mm for 4, 5 and 6 column radiators. The angle covered by the radiators cannot be greater than 180°.

6 simple steps

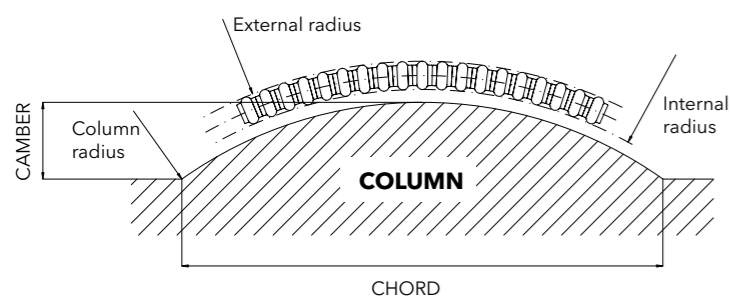

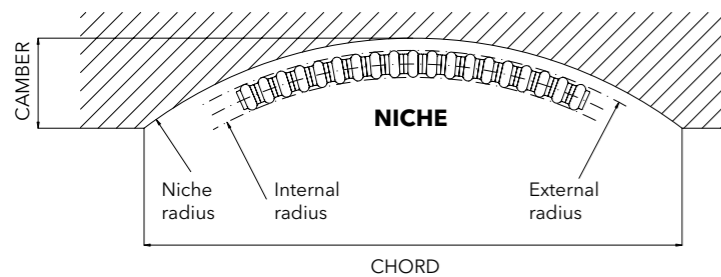

When ordering a Multisec Curved please specify:

1. Number of columns
2. Height
3. Number of sections
4. Wall mounted or welded feet
5. Camber and chord as indicated in the technical drawing below
6. Niche or Column curve

MS-CURVE

Cost to curve Multisec per section	£19.00 ex VAT
	£22.80 inc VAT

Please note this is an additional cost to the price of the radiator itself. See page 104 for the price of the radiator and other technical details.

Shown here in Graphite S07 finish

Joining key

Model / Code	ZXTOOL-02
Blenheim joining key	£160 ex VAT £192 inc VAT

We will always strive to keep on-site assembly to a minimum, but for radiators larger than the maximum factory assembled size (see charts above) on-site assembly will be required. Full instructions and parts will be supplied, although a joining key tool will need to be purchased separately on a sale/return basis.

To calculate the length of the radiator, multiply the number of sections by 78mm, then add 24mm for reducing bushes. Please note there is a +/- 2mm manufacturers tolerance per section. We strongly recommend not setting pipework until the radiator has been delivered.

760mm high model shown here in Light Old Penny finish with Nostalgia brass thermostatic valves and traditional brass pipe sleeves.

A joining tool is required for on-site assembly for longer lengths than the factory maximum number of sections.

Joining key

Model / Code	ZXTOOL-02	
Ionic joining key	£160 ex VAT	£192 inc VAT

We will always strive to keep on-site assembly to a minimum, but for radiators larger than the maximum factory assembled size (see charts above) on-site assembly will be required.

Full instructions and parts will be supplied, although a joining key tool will need to be purchased separately on a sale/return basis.

To calculate the length of the radiator, multiply the number of sections by the section width (see table above), then add 26mm for reducing bushes.

Please note there is a +/- 2mm manufacturers tolerance per section. We strongly recommend not setting pipework until the radiator has been delivered.

4 column shown here in Anthracite finish with Chartwell anthracite thermostatic valves and traditional anthracite pipe sleeves.

Good to know

The Comb is reversible, so the vertical tubes can either be on the left or right side. When ordering the electric model, please specify which orientation is required.

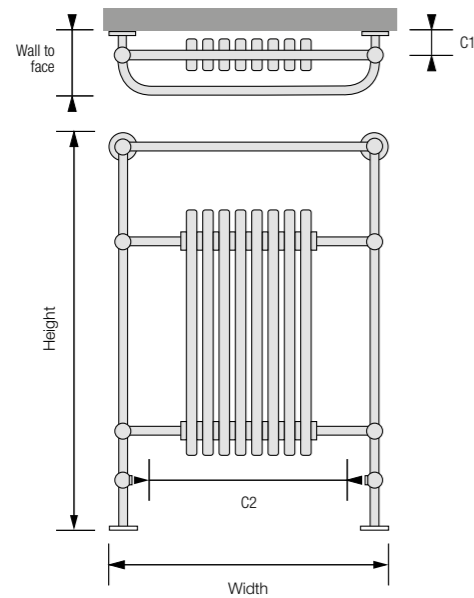

Shown here with Radius chrome manual angled valves.

Sabrina

Made from robust steel tubes, the Sabrina's square profile is highlighted by a bold frame that creates a focal point. Its generous bar spacing allows plenty of room for towels, while dual fuel and electric options allow it to be used even in the summer months.

Typical valve dimensions

The following notation has been used for dimensions:

Valves	A	B	C
Belgravia			
Belgravia angled	106	42	-
Chartwell			
Chartwell angled manual	107	44	-
Chartwell angled TRV	139	44	-
Chartwell 1/2" BSP angled	93	53	-
Chartwell 3/4" BSP angled	95	53	-
Gyro			
Gyro angled manual	86	43	-
Gyro angled TRV	135	43	-
Gyro straight manual/TRV	-	-	72
Kentwell			
Kentwell angled/corner manual	100	46	-
Kentwell angled/corner TRV	110	46	-
Nostalgia			
Nostalgia angled manual	107	53	-
Nostalgia angled TRV	139	53	-
Nostalgia 1/2" BSP angled	93	53	-
Nostalgia 3/4" BSP angled	95	53	-
Radius			
Radius angled manual	77	41	-
Radius straight manual/TRV	-	-	67
Radius TRV angled	126	41	-
Radius corner manual	54	41	-
Radius corner TRV	110	41	-
Tekne			
Tekne angled	107	44	-

Important note: All dimensions are given in good faith. However, it is always advisable to await delivery of your radiator and valves before setting the pipe work in its final positions. MHS cannot accept any liability for pre delivery installed pipe work not matching up with the final item.

Angled:

Use these for radiators where the pipework is 'from the floor' and the connection on the radiator is horizontal. These can also be used on towel rails when the pipework is through the wall.

Straight:

Use the straight type when the pipework is 'from the floor' and the connection on the radiator is vertical.

Corner:

Use these for radiators or towel rails where the pipework is 'from the wall'.

Manual:

Use for any application.

TRV:

User adjustable to automatically control the final temperature of the room.

CHART ONE

Due to the limitations of the printing process, finished product colour may vary from this publication. If you would like a colour swatch, please contact head office.

Other colours

We can also offer any RAL Classic colour in gloss, semi-gloss or matt finish. Please specify at the time of order.

Supply options

Central heating only

Designed for connection to a central heating system.

Dual fuel

Connected to the central heating system and supplied with the MHS Smart electrical element that can be used when the heating is off, typically during the summer months.

Dual fuel models are supplied with an electric element (loose) and two tee pieces to provide symmetrical connections.

Note: Installation should only be carried out by a qualified electrician and comply with all current UK regulations.

Electric only

Electric only models are factory filled and tested, ready for electrical connection, with the MHS Smart electric element fitted to the right hand side (unless otherwise specified).
